Rooted in Stone, Shaped by Vision

Founded with a deep respect for nature and an enduring passion for craftsmanship, İstaş has been shaping natural stone into architectural statements for over 30 years.

Based in Türkiye — home to some of the world's richest stone quarries — we specialize in extracting, processing, and exporting premium-quality travertine to clients across the globe.

From the first cut in the quarry to the final polished slab, every stage of production is handled with precision and care.

Our advanced facilities and experienced team ensure that each piece not only meets global standards but also tells a story of elegance, durability, and timeless beauty.

At İstaş, natural stone is more than a material — it's a legacy.

One that we proudly share with architects, designers, and dreamers around the world.

THE LEGACY OF PHILADELPHIA

From Sacred Foundations to Modern Living

In the heart of ancient Lydia once stood the city of Philadelphia — a crossroads of civilizations, faith, and artistry.

Among its most enduring structures is the Church of St. Jean, whose grand pillars and enduring walls were crafted from a remarkable local stone: the same travertine we now bring to life in contemporary design.

This isn't just a stone. It's a fragment of history.

Our Philadelphia Travertine carries within it the soul of centuries — the weathered elegance of sacred halls, the memory of rituals, and the artistry of ancient hands. Its unique blend of earthy tones and dramatic veining is nature's way of storytelling, shaped by time, water, and geological wonder.

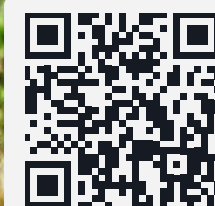

By reimagining this historic material for modern living, we connect past and present.

The stone that once formed the foundation of ancient faith now graces today's homes, hotels, and public spaces — a silent witness to the enduring power of design.

With every cut, polish, and placement, we honor its story — and help write the next chapter.

Alaşehir, Manisa, TR Saint-Jean Church

The Saint-Jean Church, located in the ancient city of Philadelphia and one of the seven churches mentioned in the Bible.
